## ● WORK EXPERIENCE

### Senior Full Stack Engineer EPAM Systems

📅 08/2022 – present 📍 BISHKEK, KYRGYZSTAN

- Led team of 5 developers, contributing to velocity increase from 22 to 26
- Incorporated technical goodies such as prettier, eslint, git hooks
- Accelerated heavy DB query execution time from 2 seconds to 450 milliseconds
- Reduced bundle size by 25% replacing heavy libraries and applying lazy loading
- Built trustworthy relationships with customers by returning stable feature release
- Established efficient code review processes for both, backend and frontend
- Coordinated team standups, retrospectives, stories refinement, planning, and demos

### Senior Frontend Engineer EPAM Systems

📅 01/2022 – 08/2022 📍 BISHKEK, KYRGYZSTAN

- Delivered features in project as Key developer using React.js/Typescript
- Reviewed and prepared technical documentation for feature delivery and bug fixing
- Increased overall code quality to acceptable level by analyzing reports from Sonarqube, implementing technical debt
- Achieved restoring stable release delivery after increasing test coverage by 7 percent in first 2 weeks
- Improved code review processes and style guides in FE team of 11 developers
- Negotiated with business stakeholders, BE, BI, and QA teams to assist with tech support and explain technical solutions

### Middle Backend Developer Kanda Software

📅 10/2021 – 01/2022 📍 BISHKEK, KYRGYZSTAN

- Delivered features and fixed bugs in the cloud-based web app
- Created application, CI/CD workflow from scratch using Express.js, Azure
- Pioneered SOLID, DRY, KISS, and YAGNI principles during development process

English (C1)  
Russian (native)

## ● SKILLS

# JavaScript  
# TypeScript  
# React.js  
# Redux  
# Redux-thunk  
# Redux toolkit  
# Material UI  
# HTML5  
# CSS3  
# SCSS  
# Formik  
# Yup  
# Recharts  
# date-fns  
# dayjs  
# Webpack  
# customize-cra  
# React Testing Library  
# Jest  
# Supertest  
# Node.js  
# NestJS  
# Express.js  
# PostgreSQL  
# MS Sql  
# MongoDB

## ● WORK EXPERIENCE

- Integrated third-parties services such as Auth0, ZITTER
- Established API docs and overall project docs
- Negotiated with customers to plan efficient sprints
- Interviewed 25 candidates for middle+ positions

### Full Stack developer

#### TimelySoft

📅 01/2021 – 09/2021 📍 BISHKEK, KYRGYZSTAN

- Integrated third-parties platforms such as ScraperApi, AmoCrm, Telegram, and Yandex
- Created microservices from scratch to scrape 10 websites
- Increased users' inflow 3 times to platform
- Negotiated sprints plan with the customer and assisted with fast tech support
- Coordinated code reviews for trainees and junior developers in and outside of the project
- Interviewed 20+ candidates for junior developer positions.

## ● EDUCATION

### Software Engineering | Bachelor's degree

#### Kyrgyz State Technical University n.a. I. Razzakov

📅 09/2018 – 06/2022 📍 BISHKEK, KYRGYZSTAN
